Name of Applicant

PERLA ACOSTA OJEDA

1. Applicant is (check one box below)

- ☒ Individual ☐ General partnership ☐ For-profit corporation
☐ Other ☐ Limited partnership ☐ Not-for-profit corporation

2. If the applicant is an unincorporated association or a legal entity other than an individual, partnership, or corporation, describe in an Exhibit the nature of the application.

Exhibit No.

NOTE: The terms "applicant," "parties to this application," and "non-party equity owners in the applicant" are defined in the instructions for Section II of this form. Complete information as to each "party to this application" and each "non-party equity owner in the applicant" is required. If the applicant considers that to furnish complete information would pose an unreasonable burden, it may request that the Commission waive the strict terms of this requirement with appropriate justification.

3. If the applicant is not an individual, provide the date and place of filing of the applicant's enabling charter (e.g., a limited partnership must identify its certificate of limited partnership and a corporation must identify its articles of incorporation by date and place of filing):

Date _____ Place _____

In the event there is no requirement that the enabling charter be filed with the state, the applicant shall include the enabling charter in the applicant's public inspection file. If, in the case of a partnership, the enabling charter does not include the partnership agreement itself, the applicant shall include a copy of the agreement in the applicant's public inspection file.

4. Are there any documents, instruments, contracts or understandings (written or oral), other than instruments identified in response to Question 3 above, relating to future ownership interests in the applicant, including but not limited to, insulated limited partnership shares, nonvoting stock interests, beneficial stock ownership interests, options, rights of first refusal, or debentures?

☐ Yes ☒ No

If Yes, submit as an Exhibit all such written documents, instruments, contracts, or understandings, and provide the particulars of any oral agreement.

Exhibit No.
N.A.

5. Complete, if applicable, the following certifications:

(a) Applicant certifies that no limited partner will be involved in any material respect in the management or operation of the proposed station.

☒ Yes ☐ No

If No, applicant must complete Question 6 below with respect to all limited partners actively involved in the media activities of the partnership.

(b) Does any investment company (as defined in 15 U.S.C. Section 80 a-3), insurance company, or trust department of any bank have an aggregated holding of greater than 5% but less than 10% of the outstanding votes of the applicant?

☐ Yes ☒ No

If Yes, applicant certifies that the entity holding such interest exercises no influence or control over the applicant, directly or indirectly, and has no representatives among the officers and directors of the applicant.

☐ Yes ☐ No

1. List each principal of the applicant who, in the event of a grant of the application on a comparative basis proposes to participate in the management of the proposed facility and, with respect to each such principal, state whether he or she will work full-time (minimum 40 hours per week) or part-time (minimum 20 hours per week) and briefly describe the proposed position and duties.
2. State with respect to each principal identified in response to item 1. above, whether the applicant will claim qualitative credit for any of the following enhancement factors:
 - (a) Minority Status
 - (b) Past Local Residence
If Yes, specify whether in the community of license or service area and the corresponding dates.
 - (c) Female Status
 - (d) Broadcast Experience
If Yes, list each employer and position and corresponding dates.
 - (e) Daytime Preference

SECTION VI - EQUAL EMPLOYMENT OPPORTUNITY PROGRAM

1. Does the applicant propose to employ five or more full-time employees?

☐ Yes ☒ No

If Yes, the applicant must include an EEO program called for in the separate Broadcast Equal Employment Opportunity Program Report (FCC 898-A).

SECTION VII - CERTIFICATIONS

1. Has or will the applicant comply with the public notice requirement of 47 C.F.R. Section 78.6560?

☒ Yes ☐ No

2. Has the applicant reasonable assurance, in good faith, that the site or structure proposed in Section V of this form, as the location of its transmitting antenna, will be available to the applicant for the applicant's intended purpose?

☒ Yes ☐ No

If No, attach as an Exhibit, a full explanation.

Exhibit No.

ENGINEERING STATEMENT IN SUPPORT OF APPLICATION FOR CONSTRUCTION PERMIT
CHANNEL 243A, HOBBS, NEW MEXICO
PAULA ACOSTA OJEDA
JULY, 1991

=====

This Firm has been retained by Perla Acosta Ojeda to prepare this Engineering Statement in support of her application for construction permit in the FM Broadcast Service.

Mrs. Ojeda proposes to construct a new FM Broadcast Station at Hobbs, New Mexico. The proposed facility will operate as a Class A facility on channel 243 which has been recently allocated to Hobbs, New Mexico. The filing window for this allocation closes on July 5, 1991.

RESPONSE TO SECTION V-B OF FCC FORM 301

Paragraph 3:

The supporting structure is a uniform cross section, guyed steel tower, 136 meters in height. The tower is an existing tower used for radio communications purposes by Western Oil Transportation. The owner has consented to the use of this structure for FM Broadcast purposes. The proposed antenna will be side mounted with a center of radiation 88 meters above ground level. This will place the height above average terrain 91 meters above average terrain, the maximum permitted under the US/Mexico FM agreement. No change in height of the tower is proposed.

There are no other radio broadcast stations presently located on the proposed site.

Paragraph 4

The tower is an existing structure located approximately 0.55 miles east of the Denver City highway 132 on County Road C-75. The tower location is correctly plotted on the Humble City, S. E, Tex-New Mexico 7.5 minute topographic map of Figure 4. The coordinates listed in the FCC/FAA tower database plot on the opposite side of the road. Accordingly, new coordinates taken from the map are being submitted to the FAA and are used in this application. The ground level and overall height above mean sea level area are also being corrected with this application.

Paragraph 5

The FAA has been notified of the proposed construction. A copy of the FAA Form 7460 appears herein as Figure 1.

SELLMEYER ENGINEERING

BROADCAST AND COMMUNICATIONS CONSULTING ENGINEERS
P. O. Box 388 McKinney, Texas 75069

Paragraph 7

The average elevation for each of the standard radials was determined by use of computer program which employs the NDGC thirty second terrain database TPG-0050 in conjunction with a program which linearly interpolates the elevation of intermediate points. Each of the eight standard radials were evaluated from the site to sixteen kilometers at 0.1 kilometer intervals. The average elevation between three and sixteen kilometers was then extracted for each radial. The site elevation was determined by reference to the Humble City, S. E., Tex-New Mexico 7.5 minute USGS topographic map. The site elevation is printed on the map at the exact site of the proposed tower.

Paragraph 8

The vertical plan sketch of the supporting structure showing all pertinent dimensions appears herein as Figure 2. The antenna will be a three element circularly polarized antenna, side mounted at the 88 meter level of the tower.

Paragraph 9

The proposed height above average terrain is in the maximum allowed by the
